

Knowledge Millennium Virtual Summit 2021

Green Processing Revolution

KCCI/KM21
23-09-2021

Excellency,

Greetings!

Green Revolution is not a new concept for India. The country has already reaped the benefits of such great revolution which changed the statics of the country completely and brought it at a level playing field with many more countries of the world. The impact of the Green revolution is seen not merely in the increase of food grain production, but in reality it goes far beyond.

Agribusiness Sector is an Important Link in Economic Growth Models. India needs Green revolution again or we may said India moving towards Green Processing Revolution.

Food processing is the transformation of **agricultural** products. India's food ecosystem offers huge opportunities for investments with stimulating growth in the food retail sector, favorable economic policies and attractive fiscal incentives. **By 2024, the Food Processing industry will potentially attract USD 33 Bn investments and generate employment for 9 Mn people. The Food & Grocery market in India is the sixth largest in the world and it further constitutes almost 65% of the total retail market in India.**

Therefore, **Knowledge Chamber of Commerce and Industry of India along with FLS Communication and media are organizing its Knowledge Millennium Virtual Summit on Green Processing Revolution on 29-30th October 2021 at India which emphases on Agriculture & Food Processing with a theme of AIM. AIM signify Agriculture, Innovations & Market through Agribusiness, Technology & value chain at large. The Vertebrand is the Knowledge partner for the Summit 2021** and coming up with the research report which is release during the Inaugural Session of the virtual Summit.

The Summit shall be attended by Senior Industry representatives & experts from all over the world. Together they will offer perspectives on bringing new innovations to the Agriculture and Food processing sector along with exploring possibilities for investments to increase trade and strengthen global food security.
